OUR CELEBRATION WILL BE GREAT

Clearfield Will Observe Fourth
This Year as Never Before

TWO DAYS OF FUN AND FROLIC

Industrial Parade Will be Participated in by Every Enterprising Manufacturer and Business Man in the Borough—Various Committees are Working for Success of Affair.

The industrial parade committee of the Fourth of July celebration has issued the following circular. The committee wishes to inform the public that it is ready at all times to receive suggestions from citizens as to the formation of this parade, being anxious to make it the grandest success possible. George Rosser has been appointed chairman of the working committee and E. E. Jameson secretary, and these gentlemen will put forth their best efforts toward increasing public interest in the parade. They will name their aids later.

The committee's circular reads as follows: Committees are now working on arrangements for a big celebration in the Clearfield Driving park on the 3d and 4th of July. This promises to be one of the most noteworthy events of this kind ever held in this part of the state.

The following arrangements have, thus far, been made:

Two balloon ascensions with double parachute drops daily.

Lady high diver—two exhibitions daily.

Baseball—two games daily.

Horse racing.

And a carnival on the ground during both days.

The executive committee is making every effort, with reasonable assurance, to have Ex-President Roosevelt as the speaker on July 4th. Efforts are also being made toward securing the presence of the state candidates for governor and United States senator.

The work in which the committee is especially interested, and which is the most important event in the two day's celebration, being the feature on which we depend largely for the successful advertising of our town and county—The Industrial Parade. It is hoped that every manufacturing industry in this vicinity will be represented, and it is further hoped that every dealer in merchandise will lend a hand toward making this feature the great success which it should be. There will be a cash prize offered for the most attractive horse-drawn float and also a cash prize for the most attractive automobile float. These prizes to be awarded only to local participants.

A number of manufacturers representing well known proprietary lines have expressed their willingness to participate in this parade, and doubtless will have many attractive floats of this kind.

Your committee expects that every business man in Clearfield will bear his share toward making this parade a great success, as there is no better way to advertise our own business, and advertise the county, than by taking part in this event.

Very respectfully,
INDUSTRIAL PARADE COM.

FOURTH WARD FIREMEN

Misrepresentation Regarding the Purchase of a Lot.

There seems to be some misrepresentations relative to the purchase of a lot for the Fourth ward fire house. Council was told Wednesday night that there is a mortgage covering the lot the firemen bought from Mary A. Alter, through her agent, W. M. Eisenhauer. There is such a mortgage on the Alter lots, but this mortgage will be satisfied Mr. Eisenhauer having been authorized to take this action by Mrs. Alter.

The deed conveying the lot to the borough of Clearfield was executed on September 11, 1913, and is in the possession of Mr. Eisenhauer, awaiting the payment of the balance due and acceptance by borough council.

The Fourth ward firemen feel that an injustice has been done them by those who discussed the matter at the recent council meeting and they believe that when council finds that the title to Alter lot is clear of all incumbrances the councilmen will take the necessary action to close the purchase of the lot.

ANNUAL CONFERENCE

Seventh Day Adventists Will Meet in Pittsburgh.

The annual conference of the Seventh Day Adventists of Western Pennsylvania will be held in the large pavilion at Homestead park, Homestead Pa., June 11 to 21. Delegates from Pittsburgh, Washington, Johnstown, present, representing churches in Pittsburgh, Washington, Johnstown, Altoona, Clearfield, Coudersport, Bradford, Warren and many other places.

This will be a very important meeting, as plans formulated at the union conference just held at Baltimore, Md., will be presented, involving some matters vitally affecting the affairs of the denomination. Some of the highest officials of the church will places will be present.

DIED AT THE HOSPITAL

Mrs. Ellen Kelleher, of Tyrone, Passes Away Tuesday.

Mrs. Ellen Kelleher, of Tyrone, passed to the life beyond at the hospital here Tuesday afternoon. For a year or more Mrs. Kelleher had been in failing health, and a few weeks since she was taken to the Clearfield hospital for an operation. The immediate results of the operation were gratifying and everything seemed to point to additional years of a busy and useful life. On last Monday, however, she suffered a relapse and gradually grew weaker until the spirit fled on Tuesday afternoon.

The body was taken to Tyrone on Tuesday evening.

Improvements.

Chan W. Howard is having his East Locust street residence repainted.

U. Grant Way is improving his residence property by filling and grading his lot.

Work on the Leitzinger building is progressing satisfactorily.

EIGHTH GRADE GIVES FINE PERFORMANCE

Present Comic Operetta in Excellent Manner

The eighth grade presented the comic operetta, "Bulbul," Thursday night at the opera house. This is the first time such a thing has been attempted. There have been only three eighth grade commencement exercises, and heretofore it has been held in the afternoon. The house was packed from pit to dome Thursday evening. The affair was one of the best of this week's performances.

The first scene of the play was in the garden of the palace during the afternoon. A very pretty dance and a song were the first offerings. Princess Bulbul, a soprano, the beautiful daughter of the king, was impersonated by Catherine Zerfoss. The princess was doomed to marry a prince whom she had never seen, and the way the difficulty was unraveled held the attention of the audience until the end. Leslie Halford played the part of "Iamit," a well meaning but fussy little monarch. He sang several fine bass solos, Miss Zerfoss, in the numerous solos which she sang, held the rapt attention of the audience. John Flegel, as "Caspian," an amiable young prince, sang several beautiful songs and his wooing of the princess brought down the house. The part of "Ida, the Court Chaplain," was played by Velma Ammerman very cleverly. "Lilith" was played by Clara Howard, a mezzo-soprano, whose solos were wonderful for so young a girl. Her acting was also done to perfection. Way Powell played the part of "Alain," a friend to "Caspian" and did his part well and sang some delightful solos. "Dossy" keeper of the royal spectacles, and "Justo," keeper of the royal cash box, were Richard Kennard Jr., and Karl Rowles, who did their parts well.

Choruses were. Maids of honor, friends to "Caspian," lords and ladies of the court, and the housemaids. They were all prettily attired and did their parts excellently.

Chautauqua Tickets.

The chautauqua tickets are now in the hands of the committee. Chautauqua will be the week of July 6. The demand for tickets may be in excess of the supply. Persons who have subscribed for tickets can secure their quota now by applying to the committee in the Keystone building.

W. L. BETTS, Chairman.
JOHN M. BAIN, Secretary.

COUNTRY CLUB

OPENING DAY

Members Will Enjoy Supper and Dance Saturday

SUMMER ACTIVITIES PROMISED

Club is Situated in one of the Most Beautiful Localities in the West Branch Valley—Buildings and Grounds are Kept in Good Condition—Social Functions Inviting.

The Clearfield-Curwensville country club will be formally opened tomorrow afternoon and evening. Supper will be served from 5 to 7 o'clock P. M., and dancing will follow. The club has made improvements to its grounds and buildings since last season, and many activities have been planned for the summer.

The board of governors of the club are: Hon. Charles E. Patton, Hon. Singleton Bell, W. I. Betts and Warren Partridge. The house committee is comprised of Mrs. A. E. Patton, chairman; Mrs. Singleton Bell and Mrs. Samuel C. Stewart.

The series of suppers and dances to be given by the club this year will be on June 6, (opening day), June 27, July 11 and 25, August 8 and 22, September 7 (Labor day), and September 19.

An Ideal Location.

Owing to its location just off the state road and on a broad rolling plateau that rises above the public highway and consequently conceals it from the general view of passers by, few strangers see and enjoy the property owned by the Clearfield-Curwensville Country club. It is one of the most beautiful and ideal locations of its kind in the state.

The artistic bungalow club house is an inviting retreat, nicely sheltered from the hot southern and western sun by a grove of stately old trees. At the edge of the grove is a large flowing spring that never fails to fasten "the taste that lingers" upon all who visit it. The grove is equipped for picnics and outdoor lounging. A pair of tennis courts are kept in perfect condition and the golf course is conceded to be one of the best.

Pearl of the Valley.

The whole property is underlaid with tile drains and dries off quickly after rain. When one stands upon the porch of the club house and looks out over the broad, rolling expanse of velvet green he must admit that the property is without doubt the pearl of the valley, the largest and most beautiful plateau in this section. The location, nearly midway between Curwensville and Clearfield, is convenient to both towns.

The purchase and equipment of the club property marked a decided forward stride by those interested in outdoor recreation and sports, and it has developed a strong bond of friendship between the business and social interests of Clearfield and Curwensville. It is one of the features of the community, that proves that our people will go down in their pockets and pay well for a permanent social improvement if they are certain that it will be well conducted.

LOST \$90,000

That Amount Turned Back Into the State Treasury.

Through a misinterpretation of the mother's pension law the counties of the state received the benefit of only \$10,000 of the \$100,000 for the year ending June 1. The other \$90,000 was turned back into the treasury. This was discussed Wednesday at the morning session of the first annual convention of the trustees of the fund at Pittsburgh.

The law prescribes that the appropriation for the year ending June 1 must be administered within the year and whatever is left over at the end of that time reverts to the state.

Members of county boards thought that whatever was left over at the end of the year could be used the year following. Under this impression on the boards were deliberate in their operations, and when June 1 arrived only \$10,000 had been distributed to the applicants.

The appropriation for the year ending June 1, 1915 will be the same as the preceding year. A movement was launched at Wednesday night's meeting of the convention to obtain an amendment of \$1,000,000.

TWO NURSES GRADUATE

Commencement Held in the Presbyterian Church Last Night.

The commencement exercises of the graduates of the Clearfield hospital training school for nurses was held in the Presbyterian church last evening. The graduates are Miss Margaret Kirkwood and Miss Helen Quist. Addresses were made by A. H. Woodward, Esq., Dr. S. C. Stewart and Dr. S. J. Waterworth.

Fred B. Kerr presented the diplomas to the graduates. Rev. C. R. Allenbach opened the services with prayer and Dr. E. C. Reeve pronounced the benediction. Miss Marian Bigler sang a solo very sweetly.

A reception and luncheon followed the exercises.

CARBONNE RELEASED

No Proof That He Was Concerned in Matafiro Murder.

James Carbone, supposed to have been an accessory before the fact in the murder of Antonio Matafiro, was released from jail this morning.

Carbone was before Judge Bell on habeas corpus proceedings. District Attorney Welch stated to the court that he was doubtful if the evidence in his possession was sufficient to connect Carbone with Caro and Mastriana in the killing of Matafiro, and asked that the prisoner be discharged. The court issued the order and Carbone departed, a very happy man.

Missed No Days.

Four of the pupils of Miss Charlotte Smith's fourth grade room, in the Third ward building, did not miss a day last year. The pupils were: Nancy Waple, Genevieve Halford, Martha Nichols and Curtis Smith. They are surely to be commended upon their regularity of attendance. The schools need more pupils like them.

PALMER-M'CORMICK RULE THE COMMITTEE

Old Guard Has no Voice at The Harrisburg Meeting

Harrisburg June 5—With much eloquence the two candidate-managers of Pennsylvania's reorganized Democrats, A. Mitchell Palmer and Vance C. McCormick, called for that elusive thing, party harmony, at the Democratic state committee meeting Wednesday afternoon. Then harmony flew away.

By a good safe majority the new committeemen were responsive to the wishes of the Palmer-McCormick management; but when that management introduced a new wrinkle in promulgating a party platform, in order to avoid a wrangle on the floor over local option and woman suffrage planks trouble was started just the same by Assemblyman John Flynn, of Elk county, and others counted as friendly to the liquor interests. Flynn came next thing to declaring a strike right on the spot.

The local option and woman suffrage planks went into the platform. Both Palmer and McCormick, in speeches before the committee hit out savagely at Penrose and Penroseism, indicating their line of fire for the campaign. Palmer also proclaimed himself champion and defender of the Wilson administration, its Panama canal tolls policy, its Mexican course and all.

So well did the Guffey-Hall "old guard" know it was beaten in the primary contest for control of the committee that it offered no opposition whatever to the reelection of Roland S. Morris, of Philadelphia, the Palmer-McCormick state chairman. Even William J. Brennan, Guffey's old Allegheny county lieutenant, who held a seat by proxy, sat silent.

When Chairman Morris got down to business he let it be known that a party rule had been discovered which allowed him to apportion the state into new party divisions, composed of groups of counties, each with a district chairman, who is a member of the state executive committee. He announced twelve new divisions, those counties in the northwest being so allotted that ex-Senator J. K. P. Hall, of Elk county, will have difficulty in regaining political foothold.

Home Industries.

"You'll have to do some work mending fences," said one statesman. "I've got clear past thinking about fences," replied the other. "I'm drawing plans and specifications for a cyclone cellar."—Washington Star

PUPILS TAUGHT USEFUL ARTS

Domestic Science, Manual Training and Drawing in Schools

AN EDUCATION THAT COUNTS

Boys and Girls Instructed in Work That Will be Useful to Them. Matter What Vocation in Life They May Select—Training of Hands.

The schools of Clearfield offer these courses of study that are very important and useful, which are not offered in many towns in this part of the state. The value of the work in drawing, manual training and domestic science is inestimable. Work with the hands as well as the mind has a value that no other labor can have. These branches are also practical training the child to really accomplish something for himself.

The course in domestic science covers four years and begins in the sixth grade. The first year sewing alone is taught; the next three years both sewing and cooking; during the first and second years in sewing all kinds of hand sewing are taught, including basting, running stitch, overcasting, over basting on folded or overlaid edge true bias and matching straight, plain hemming, herring bone stitch, etc. In the third year the pupils are taught the use of the sewing machine and instruction is given in the use of patterns and under garments are made. In the fourth year the pupils make under garments, kimonos and aprons.

Course in Cooking.

The course in cooking begins in the seventh grade. During the three years a study is made of air and its relation to life and to fire; the kitchen fire, water, cleanliness and cleaning, and typical foods. A special study is made of the manufacture of such food products as butter, cheese, cereals and flour, and of cuts of meat. Meticulous attention is given to food adulterations, preservation and dietaries. In the first year the preparation of the following foods is the simplest manner is taught: Cereals, eggs, milk, fruit, making tea, baking custard, griddle cakes, biscuits, puddings, etc.

The second year canning of tomatoes, scalloped potatoes, macaroni, soup stock, pastry, cookies, ice cream, etc. The third year, canning peaches, omelets, cooking oysters, roast veal, frozen deserts, salads, coquets, larded cookery, chafing dish cookery and a course in candy making are taught.

Manual Training.

The work of manual training starts in the sixth grade, with knife work, and lasts four years. The aim of the work is not to make accomplished trade men, but to train the mind through the hands. The work of the grades leads up to the High school work. After learning to use the knife and getting accustomed to tools and their uses, the making of joints and drawing are taught. The mechanical drawing includes lettering, geometrical projection and working drawings. Considerable time is also spent in designing and constructing small original pieces.

The Advanced Course.

In the High school a very much more advanced course is taken up. The drawing includes intersections, developments, belting, designing of original work, and the making of blue prints. The wood work is almost entirely original. A few exercises in how to construct drawers, panel doors and the principal joints used in large furniture are taught. Each pupil designs a piece of furniture, makes a working drawing of it and, with the approval of the instructor, makes it.

The original work includes articles of value—tablets, library tables, music and sewing cabinets, chairs, davenport, stands, hall seats, in fact any piece of furniture which can be made by hand. These pieces have been on exhibition at the High school for two days. They are given to the pupils who make them after being exhibited.

A Mental Drill.

The entire course deals with the use of common wood working tools, forms of construction in fastening wood, and the reading and understanding of blue prints. They are of the same nature as those with which a

THE CAMPAIGN OPENED.

Pennsylvania's political campaign
has opened. The Republicans enter
the fight under suspicion of hav-
ing a desire to evade the issues, post-
poning the adoption of a platform un-
til fall. Senator Penrose, hoping to
hold the liquor vote which nominated
him, and at the same time pose as
the advocate of honest government,
ordered his state committee to ignore
the issues upon which the campaign
will be fought.

The Democrats, divided into bitter-
ly antagonistic factions, have adopt-
ed a platform feathered by that fac-
tion which has charge of the pie coun-
ter, thus widening the breach exist-
ing between the two wings of the
party. The spoils of office, not the
welfare of the people are the chief
concern of the Democratic leaders of
both factions, and as the McCormick-
Palmer faction is in the saddle the
adherents of the jobless faction are
not very enthusiastic for the state
ticket.

The only straight-cut declaration
of principles is that emanating from
the Washington party. That party's
position on questions affecting the
welfare of the people and on the is-
sue of honest government are so well
known that it was scarcely neces-
sary for the state committee to re-as-
sert them at this time. The policies
and principles of the Washington par-
ty never change; they are the same
today that they were when four mil-
lion voters supported the Progress-

sive candidates in the presidential
campaign of 1912.

The campaign will be fought on the
one issue which the honest voters of
the state regard as paramount to all
other issues this year—Penroseism.
If the people who know the evils
which have followed the ascendancy
of Penrose, the national agent of the
rum element and special privilege,
will unite with the Washington party
the state will be redeemed from boss
rule and Gifford Pinchot, an able,
clean and reputable man, will repre-
sent Pennsylvania in the United
States senate. With Penroseism as
their battle cry and a candidate who
is above reproach the Washington
party should carry the state this fall.

SMALL INVESTORS' CHANCE.

Borough council having decided to
issue a number of improvement bonds
of the denomination of one hundred
dollars citizens who have small
amounts of money to invest should
take this opportunity to place their
money in bonds which are as safe as
gold bonds. Council made this pro-
vision in order that the citizens might
have a chance to bid on the bonds
with banks or men of wealth.

If citizens buy these bonds the ef-
fect will be beneficial in two ways.
The investors will receive four per
cent. interest on their investment and
the borough will profit through the
greater interest the bond holders will
take in future issues. It is not ex-
pected that these improvement bonds
will sell at a high premium, but none
of them will be disposed of at less
than par value. When bids are
advertised for those who wish to in-
vest in the bonds should have no hesi-
tancy in making their offerings, no
matter whether they wish a small or
a large number of the bonds.

Huerta is able to receive arms and

some respects Huerta is more than a

who are running the American admin-
istration.

THREATS FROM I. W. W.

President of Village of Tarrytown
Takes Letter Before Grand Jury.
Tarrytown, N. Y., June 5.—President
Pierson of the village of Tarrytown re-
ceived by telegraph a communication
from the Live and Let Live league,
which he refuses to make public at
this time. It is understood that it is
in the nature of an ultimatum to the
effect that if the threats of hot tar and
cold water for the agitators are per-
sisted in and the right of free speech
denied there will be serious conse-
quences.

President Pierson is expected to lay
the communication before the grand
jury, although he will not say that that
is what he plans to do. Frank Lowe
of the league was at Tarrytown a few
days ago demanding the right of free
speech, and steps are being taken to
ascertain the authorship of the com-
munication. It is said the communi-
cation was sent in the form of a night
letter through one of the telegraph
companies.

Parcel Post to Liberia.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neu-
tralize irritating acids.

Kidney and Bladder weakness re-
sult from uric acid, says a noted au-
thority. The kidneys filter this acid
from the blood and pass it on to the
bladder, where it often remains to ir-
ritate and inflame, causing a burning
scalding sensation and is very pro-
truding at the neck of the bladder,
obliging you to seek relief two or
three times during the night. The
sufferer is in constant dread, the
water passes sometimes with a
scalding sensation and is very profuse
fuss again, there is difficulty in
voiding it.

Bladder weakness, most folks call
it, because they can't control urina-
tion. While it is extremely annoying
and sometimes very painful, this is
really one of the most simple ailments
to overcome. Get about four ounces
of Jad Salts from your pharmacist
and take a tablespoonful in a glass of
water before breakfast, continue this
for two or three days. This will neu-
tralize the acids in the urine so it no
longer is a source of irritation to
the bladder and urinary organs while
then act normally again.

Jad Salts is inexpensive, harmless,
and is made from the acid of grapes
and lemon juice, combined with lith-
ia, and is used by thousands of folks
who are subject to urinary disorders
caused by uric acid irritation. Jad
Salts is splendid for kidneys and
causes no bad effects whatever.

Here you have a pleasant, efferves-
cent lithia-water drink, which quick-
ly relieves bladder trouble.

MILITANTS PLAN TO STEAL PRINCE

Plot Discovered, England Will Begin Harsh Measures.

STRONG GUARD FOR HENRY.

Scotland Yard Men Rushed to Eton. Where Young Boy Attends School. Menace of Militancy Hangs Over Buckingham Palace—King Gives U. Exercise.

London, June 5.—The increasing fury of suffrage militancy has forced the government to face a radical change in policy, which includes the abolition of "cut and mouse" releases for suffrage prisoners and the treatment of suffrage propagandists and financial backers as conspirators against public order.

A kidnapping plot against Prince Henry, the king's fourteen-year-old son, which has been reported by Scotland Yard officers, is one of the outrages calculated to stiffen the backbone of the ministry. The king's third son attends school at Eton. The Scotland Yard authorities have investigated the details of the plot, and two detectives have been assigned to guard his safety.

King Gives Up Morning Canter. Other indignities have disturbed the comfort of the royal family. The king has had to give up his morning canter in Rotten Row. Mrs. Pankhurst has encircled herself in a house not far from the palace, where she is recuperating from the effects of her latest hunger strike.

Special police have the place constantly under watch, fearing some ferocious outbreak in the presence of the king.

The outrages which are arraying the government and the militants in invincible division include the attack of the suffragette on an employee of the Dore gallery after she had hacked valuable pictures, the assault on the deputy governor and physician of Holloway jail, arson in Belfast and violent attacks on two editors in Belfast.

These things have brought the public mind to such a state that the government is forced to revise its policy. Indignation is intense, and the ministerial newspapers forecast the change. The reported plot to kidnap the king's

son is taken seriously in view of the concert of militant activity, and it may prove to be the basis of the government's ascendancy over the amazons.

STRETCH SHAMROCK'S SAILS.

British Challenger Takes First Spin and Does Well.

Portsmouth, England, June 5.—Shamrock IV., Sir Thomas Lipton's new challenger for the America's cup, went out for her first sail stretching spin in the vicinity of Spithead. She was accompanied by Shamrock III.

The wind was light and fluky and inadequate to test the capabilities of the challenger. Under huge mainsail and her sloop foresails, she maneuvered handily, however, and picked up way quickly after tacking. The towering mast of the yacht quite dwarfed that of the older Shamrock.

Sir Thomas Lipton was on board the challenger, together with Charles E. Nicholson, her designer, and William P. Burton, the amateur yachtsman, who is to command the Shamrock IV during the cup races in America.

WILSON ACCEPTS MONUMENT.

Presented to the Government by Women of the Confederacy.

Washington, June 5.—Mrs. Daisy McLauren Stevens, president general of the United Daughters of the Confederacy, presented to the government, the southern women's monument to the dead of the Confederacy. President Wilson accepted the monument in behalf of the government.

The ceremonies took place in Arlington cemetery and were most impressive, among those participating being the leaders of the two great veteran associations. General Bennett H. Young of the United Confederate Veterans and Washington Gardner, commander in chief of the G. A. R. Secretary Bryan also was present.

NO TOLLS VOTE THIS WEEK.

Both Sides Eager For Issue, but Delay Seems Certain.

Washington, June 5.—All signs indicated that the final vote in the senate which will end the Panama toll controversy will be taken early next week. Those hoping for a vote this week were almost willing to admit that without night sessions a vote could not be reached this week, as had been hoped by Senator Kern, Democratic floor leader.

A singular point about the desire for a vote is that opponents of repeal seem just as anxious to vote as those in favor of it.

HUERTA SEEKS TO STOP ARMS

Orders Blockade of Port of Tampico by Federal Boats.

GUNS SENT FROM NEW YORK

Experts Say Dictator Has Right to Prevent Constitutionalists, Receiving the Arms—Administration Willing For Rebels to Get the Ammunition. Another Delicate Situation.

Washington, June 5.—All Washington is wondering what will be the outcome of Huerta's order to blockade the port of Tampico and keep out the arms shipped from New York on the Ward liner Antilla. These arms are for the rebels, who now hold Tampico, and the United States forces at Tampico have orders to keep that port open. What complications may arise to embarrass President Wilson and the mediators at Niagara Falls are a matter for serious conjecture.

The report that Huerta, or, rather his minister of war, General Blanquet, had ordered the blockade of Tampico, has just reached Washington. This action under the existing armistice is understood to be clearly within the rights of Huerta. It is not an augmentation of the supplies of either of the contending parties to the international quarrel now in mediation at Niagara Falls, but an effort on the part of a faction of Mexicans in rebellion against their government—as General Huerta sees it—to recoup their exhausted magazines with more material.

Must Keep Port of Tampico Open.
At this moment the American force in Mexican waters has orders from the highest authority as to how to act in the event that Huerta attempts to blockade the port of Tampico.

These orders were issued more than two weeks ago and so far as can be ascertained have not been countermanded. Under these orders the American commander was instructed to warn the federal naval commanders that the sanctity of the open port of Tampico must under no circumstances be disturbed. In view of the present status of the mediation proceedings Washington is on edge to learn whether the original orders have been revoked. If they stand as originally issued there is nothing for Admiral Badger to do but to warn the commander of the federal gunboats not to interfere with the discharge of the war material cargoes of merchantmen.

Huerta Acts Quickly.
The order of Rear Admiral Badger to stop any attempt on the part of the federal gunboats to blockade Tampico was at the time of its original transmission intended to be a secret communication.

Its text was not made public, but a sufficiently definite description of its purport was printed in the newspapers a fortnight ago. It is this intelligence which apparently has just reached General Huerta through his emissaries at Niagara Falls, and the blockade order has followed as Huerta's natural

move when such an opportunity to put the Wilson administration in a compromising position is afforded.

Mediators Continue Work.

Niagara Falls, Ont., June 5.—While waiting to hear from General Carranza whether he would send delegates to the conferences here the mediators planned to continue such work as would not be affected by the Constitutionalists' answer. The peace plan on which the two sets of delegates have been working for two weeks has been only partially completed. Much of the work will be of value, even if the Constitutionalists decide to enter the negotiations.

The feeling is general here that the attitude taken by Carranza in his reply will probably shape the entire course of the mediation hereafter and perhaps have a direct effect on the Washington government's future policy toward the two factions in Mexico.

FLAUNT PENROSEISM IN PEOPLE'S FACES

Republicans Stand by the Candidate of Special Privilege

Harrisburg, June 5.—Open flaunting of Penroseism is the program for the Republican state campaign. They who have been waiting to see what would be done to make the Republican party so attractive as to bring Progressives to it on the run received the answer at the Republican state committee meeting here Wednesday. It is Penroseism and more Penroseism.

While the senator wasn't present in the body at the state committee session Wednesday he was there in the spirit. The new committee displayed itself as his ready instrument. It re-elected Penrose's state chairman, William E. Crow; listened to praise of Penrose and adjourned for six weeks, at the end of which period Penrose may have contrived a platform for it to adopt.

Making of the platform is considered a matter of some delicacy. It must be a platform on which Senator Penrose's respectable running mate, Doctor Brumbaugh, candidate for governor, is willing to stand; and at the same time it must not be really offensive to the liquor interests, which supported the slate at the primaries and whose help is wanted in November. As the senator hadn't perfected its details, the committee wasn't allowed to talk about platform Wednesday.

Various progressive principles may be incorporated in the platform when it is rounded into shape. These will be as harmless as any individual declarations Doctor Brumbaugh may make. A cardinal part of Penroseism is capacity to disregard platform pledges after they have served their purposes at the elections and to suppress the individual tendencies of governors who obtain office by the Penrose machine route.

workman will come in daily contact and are a mental drill for teaching the things the man of business should acquire.

In time the school directors and faculty hope to have a full industrial course in the High school to prepare students for a technical college.

Drawing Department.

The drawing department includes free hand drawing, construction work and primary hand work. The drawing, which covers work with crayon, watercolor and pencil, is given in the eighth grade. The construction and hand work are given in the first five grades.

The aim of the drawing lessons is not to make artists of the pupils, but to enable them to represent with the hand the things which they see. The pupils are also taught to appreciate what objects and pictures are good in design and composition and what are not.

The course in drawing will be taught in the High school for the first time next year. It will then cover nine years of work.

OUR CELEBRATION WILL BE GREAT

Clearfield Will Observe Fourth
This Year as Never Before

TWO DAYS OF FUN AND FROLIC

Industrial Parade Will be Participated in by Every Enterprising Manufacturer and Business Man in the Borough—Various Committees are Working for Success of Affair.

The industrial parade committee of the Fourth of July celebration has issued the following circular. The committee wishes to inform the public that it is ready at all times to receive suggestions from citizens as to the formation of this parade, being anxious to make it the grandest success possible. George Rosser has been appointed chairman of the working committee and E. E. Jameson secretary, and these gentlemen will put forth their best efforts toward increasing public interest in the parade. They will name their aids later.

The committee's circular reads as follows: Committees are now working on arrangements for a big celebration in the Clearfield Driving park on the 3d and 4th of July. This promises to be one of the most noteworthy events of this kind ever held in this part of the state.

The following arrangements have, thus far, been made:

Two balloon ascensions with double parachute drops daily.

Lady high diver—two exhibitions daily.

Baseball—two games daily.

Horse racing.

And a carnival on the ground during both days.

The executive committee is making every effort, with reasonable assurance, to have Ex-President Roosevelt as the speaker on July 4th. Efforts are also being made toward securing the presence of the state candidates for governor and United States senator.

The work in which the committee is especially interested, and which is the most important event in the two day's celebration, being the feature on which we depend largely for the successful advertising of our town and county—The Industrial Parade. It is hoped that every manufacturing industry in this vicinity will be represented, and it is further hoped that every dealer in merchandise will lend a hand toward making this feature the great success which it should be. There will be a cash prize offered for the most attractive horse-drawn float and also a cash prize for the most attractive automobile float. These prizes to be awarded only to local participants.

A number of manufacturers representing well known proprietary lines have expressed their willingness to participate in this parade, and doubtless we will have many attractive floats of this kind.

Your committee expects that every business man in Clearfield will bear his share toward making this parade a great success, as there is no better way to advertise our own business, and advertise the county, than by taking part in this event.

Very respectfully,
INDUSTRIAL PARADE COM.

FOURTH WARD FIREMEN

Misrepresentation Regarding the Purchase of a Lot.

There seems to be some misrepresentations relative to the purchase of a lot for the Fourth ward fire house. Council was told Wednesday night that there is a mortgage covering the lot the firemen bought from Mary A. Alter, through her agent, W. M. Eisenhauser. There is such a mortgage on the Alter lots, but this mortgage will be satisfied Mr. Eisenhauser having been authorized to take this action by Mrs. Alter.

The deed conveying the lot to the borough of Clearfield was executed on September 11, 1913, and is in the possession of Mr. Eisenhauser, awaiting the payment of the balance due and acceptance by borough council.

The Fourth ward firemen feel that an injustice has been done them by those who discussed the matter at the recent council meeting and they believe that when council finds that the title to Alter lot is clear of all incumbrances the councilmen will take the necessary action to close the purchase of the lot.

ANNUAL CONFERENCE

Seventh Day Adventists Will Meet in Pittsburgh.

The annual conference of the Seventh Day Adventists of Western Pennsylvania will be held in the large pavilion at Homestead park, Homestead Pa., June 11 to 21. Delegates from Pittsburgh, Washington, Johnstown, present, representing churches in Pittsburgh, Washington, Johnstown, Altoona, Clearfield, Coudersport, Bradford, Warren and many other places.

This will be a very important meeting, as plans formulated at the union conference just held at Baltimore, Md., will be presented, involving some matters vitally affecting the affairs of the denomination. Some of the highest officials of the church will places will be present.

DIED AT THE HOSPITAL

Mrs. Ellen Kelleher, of Tyrone, Passes Away Tuesday.

Mrs. Ellen Kelleher, of Tyrone, passed to the life beyond at the hospital here Tuesday afternoon. For a year or more Mrs. Kelleher had been in failing health, and a few weeks since she was taken to the Clearfield hospital for an operation. The immediate results of the operation were gratifying and everything seemed to point to additional years of a busy and useful life. On last Monday, however, she suffered a relapse and gradually grew weaker until the spirit fled on Tuesday afternoon.

The body was taken to Tyrone on Tuesday evening.

Improvements.

Chan W. Howard is having his East Locust street residence repainted.

U. Grant Way is improving his residence property by filling and grading his lot.

Work on the Leitzinger building is progressing satisfactorily.

EIGHTH GRADE GIVES FINE PERFORMANCE

Present Comic Operetta in Excellent Manner

The eighth grade presented the comic operetta, "Bulbul," Thursday night at the opera house. This is the first time such a thing has been attempted. There have been only three eighth grade commencement exercises, and heretofore it has been held in the afternoon. The house was packed from pit to dome Thursday evening. The affair was one of the best of this week's performances.

The first scene of the play was in the garden of the palace during the afternoon. A very pretty dance and a song were the first offerings. Princess Bulbul, a soprano, the beautiful daughter of the king, was impersonated by Catherine Zerfoss. The princess was doomed to marry a prince whom she had never seen, and the way the difficulty was unraveled held the attention of the audience until the end. Leslie Halford played the part of "Iamit," a well meaning but fussy little monarch. He sang several fine bass solos, Miss Zerfoss, in the numerous solos which she sang, held the rapt attention of the audience. John Flegel, as "Caspian," an amiable young prince, sang several beautiful songs and his wooing of the princess brought down the house. The part of "Ida, the Court Chaplain," was played by Velma Ammerman very cleverly. "Lilith" was played by Clara Howard, a mezzo-soprano, whose solos were wonderful for so young a girl. Her acting was also done to perfection. Way Powell played the part of "Alain," a friend to "Caspian" and did his part well and sang some delightful solos. "Dossy" keeper of the royal spectacles, and "Justo," keeper of the royal cash box, were Richard Kennard Jr., and Karl Rowles, who did their parts well.

Choruses were. Maids of honor, friends to "Caspian," lords and ladies of the court, and the housemaids. They were all prettily attired and did their parts excellently.

Chautauqua Tickets.

The chautauqua tickets are now in the hands of the committee. Chautauqua will be the week of July 6. The demand for tickets may be in excess of the supply. Persons who have subscribed for tickets can secure their quota now by applying to the committee in the Keystone building.

W. L. BETTS, Chairman.
JOHN M. BAIN, Secretary.

COUNTRY CLUB OPENING DAY

Members Will Enjoy Supper and Dance Saturday

SUMMER ACTIVITIES PROMISED

Club is Situated in one of the Most Beautiful Localities in the West Branch Valley—Buildings and Grounds are Kept in Good Condition—Social Functions Inviting.

The Clearfield-Curwensville country club will be formally opened tomorrow afternoon and evening. Supper will be served from 5 to 7 o'clock P. M., and dancing will follow. The club has made improvements to its grounds and buildings since last season, and many activities have been planned for the summer.

The board of governors of the club are: Hon. Charles E. Patton, Hon. Singleton Bell, W. I. Betts and Warren Partridge. The house committee is comprised of Mrs. A. E. Patton, chairman; Mrs. Singleton Bell and Mrs. Samuel C. Stewart.

The series of suppers and dances to be given by the club this year will be on June 6, (opening day), June 27, July 11 and 25, August 8 and 22, September 7 (Labor day), and September 19.

An Ideal Location.

Owing to its location just off the state road and on a broad rolling plateau that rises above the public highway and consequently conceals it from the general view of passers by, few strangers see and enjoy the property owned by the Clearfield-Curwensville Country club. It is one of the most beautiful and ideal locations of its kind in the state.

The artistic bungalow club house is an inviting retreat, nicely sheltered from the hot southern and western sun by a grove of stately old trees. At the edge of the grove is a large flowing spring that never fails to fasten "the taste that lingers" upon all who visit it. The grove is equipped for picnics and outdoor lounging. A pair of tennis courts are kept in perfect condition and the golf course is conceded to be one of the best.

Pearl of the Valley.

The whole property is underlaid with tile drains and dries off quickly after rain. When one stands upon the porch of the club house and looks out over the broad, rolling expanse of velvet green he must admit that the property is without doubt the pearl of the valley, the largest and most beautiful plateau in this section. The location, nearly midway between Curwensville and Clearfield, is convenient to both towns.

The purchase and equipment of the club property marked a decided forward stride by those interested in outdoor recreation and sports, and it has developed a strong bond of friendship between the business and social interests of Clearfield and Curwensville. It is one of the features of the community, that proves that our people will go down in their pockets and pay well for a permanent social improvement if they are certain that it will be well conducted.

LOST \$90,000

That Amount Turned Back Into the State Treasury.

Through a misinterpretation of the mother's pension law the counties of the state received the benefit of only \$10,000 of the \$100,000 for the year ending June 1. The other \$90,000 was turned back into the treasury. This was discussed Wednesday at the morning session of the first annual convention of the trustees of the fund at Pittsburgh.

The law prescribes that the appropriation for the year ending June 1 must be administered within the year and whatever is left over at the end of that time reverts to the state.

Members of county boards thought that whatever was left over at the end of the year could be used the year following. Under this impression the boards were deliberate in their operations, and when June 1 arrived only \$10,000 had been distributed to the applicants.

The appropriation for the year ending June 1, 1915 will be the same as the preceding year. A movement was launched at Wednesday night's meeting of the convention to obtain an amendment of \$1,000,000.

TWO NURSES GRADUATE

Commencement Held in the Presbyterian Church Last Night.

The commencement exercises of the graduates of the Clearfield hospital training school for nurses was held in the Presbyterian church last evening. The graduates are Miss Margaret Kirkwood and Miss Helen Quist. Addresses were made by A. H. Woodward, Esq., Dr. S. C. Stewart and Dr. S. J. Waterworth.

Fred B. Kerr presented the diplomas to the graduates. Rev. C. R. Allenbach opened the services with prayer and Dr. E. C. Reeve pronounced the benediction. Miss Marian Bigler sang a solo very sweetly.

A reception and luncheon followed the exercises.

CARBONNE RELEASED

No Proof That He Was Concerned in Matafiro Murder.

James Carbone, supposed to have been an accessory before the fact in the murder of Antonio Matafiro, was released from jail this morning.

Carbone was before Judge Bell on habeas corpus proceedings. District Attorney Welch stated to the court that he was doubtful if the evidence in his possession was sufficient to connect Carbone with Caro and Mastriana in the killing of Matafiro, and asked that the prisoner be discharged. The court issued the order and Carbone departed, a very happy man.

Missed No Days.

Four of the pupils of Miss Charlotte Smith's fourth grade room, in the Third ward building, did not miss a day last year. The pupils were: Nancy Waple, Genevieve Halford, Martha Nichols and Curtis Smith. They are surely to be commended upon their regularity of attendance. The schools need more pupils like them.

PALMER-M'CORMICK RULE THE COMMITTEE

Old Guard Has no Voice at The Harrisburg Meeting

Harrisburg June 5—With much eloquence the two candidate-managers of Pennsylvania's reorganized Democrats, A. Mitchell Palmer and Vance C. McCormick, called for that elusive thing, party harmony, at the Democratic state committee meeting Wednesday afternoon. Then harmony flew away.

By a good safe majority the new committeemen were responsive to the wishes of the Palmer-McCormick management; but when that management introduced a new wrinkle in promulgating a party platform, in order to avoid a wrangle on the floor over local option and woman suffrage planks trouble was started just the same by Assemblyman John Flynn, of Elk county, and others counted as friendly to the liquor interests. Flynn came next thing to declaring a strike right on the spot.

The local option and woman suffrage planks went into the platform. Both Palmer and McCormick, in speeches before the committee hit out savagely at Penrose and Penroseism, indicating their line of fire for the campaign. Palmer also proclaimed himself champion and defender of the Wilson administration, its Panama canal tolls policy, its Mexican course and all.

So well did the Guffey-Hall "old guard" know it was beaten in the primary contest for control of the committee that it offered no opposition whatever to the reelection of Roland S. Morris, of Philadelphia, the Palmer-McCormick state chairman. Even William J. Brennan, Guffey's old Allegheny county lieutenant, who held a seat by proxy, sat silent.

When Chairman Morris got down to business he let it be known that a party rule had been discovered which allowed him to apportion the state into new party divisions, composed of groups of counties, each with a district chairman, who is a member of the state executive committee. He announced twelve new divisions, those counties in the northwest being so allotted that ex-Senator J. K. P. Hall, of Elk county, will have difficulty in regaining political foothold.

Home Industries.

"You'll have to do some work mending fences," said one statesman. "I've got clear past thinking about fences," replied the other. "I'm drawing plans and specifications for a cyclone cellar."—Washington Star

PUPILS TAUGHT USEFUL ARTS

Domestic Science, Manual Training and Drawing in Schools

AN EDUCATION THAT COUNTS

Boys and Girls Instructed in Work That Will be Useful to Them. Matter What Vocation in Life They May Select—Training Efficient and Hands.

The schools of Clearfield offer those courses of study that are very important and useful, which are not offered in many towns in this part of the state. The value of the work in drawing, manual training and domestic science is inestimable. Work with the hands as well as the mind has a value that no other labor can have. These branches are also practical training the child to really accomplish something for himself.

The course in domestic science covers four years and begins in the sixth grade. The first year sewing alone is taught; the next three years both sewing and cooking; during the first and second years in sewing all kinds of hand sewing are taught, including basting, running stitch, overcasting, over basting on folded or overlaid edge true bias and matching straight, plain hemming, herring bone stitch, etc. In the third year the pupils are taught the use of the sewing machine and instruction is given in the use of patterns and under garments are made. In the fourth year the pupils make under garments, kimonos and aprons.

Course in Cooking.

The course in cooking begins in the seventh grade. During the three years a study is made of air and its relation to life and to fire; the kitchen fire, water, cleanliness and cleaning, and typical foods. A special study is made of the manufacture of such food products as butter, cheese, cereals and flour, and of cuts of meat. Meticulous attention is given to food adulterations, preservation and dietaries. In the first year the preparation of the following foods is the simplest manner is taught: Cereals, eggs, milk, fruit, making tea, baking custard, griddle cakes, biscuits, puddings, etc.

The second year canning of tomatoes, scalloped potatoes, macaroni, soup stock, pastry, cookies, ice cream, etc. The third year, canning peaches, omelets, cooking oysters, roast veal, frozen deserts, salads, coquets, lavallid cookery, chafing dish cookery and a course in candy making are taught.

Manual Training.

The work of manual training starts in the sixth grade, with knife work, and lasts four years. The aim of the work is not to make accomplished trade men, but to train the mind through the hands. The work of the grades leads up to the High school work. After learning to use the knife and getting accustomed to tools and their uses, the making of joints and drawing are taught. The mechanical drawing includes lettering, geometrical projection and working drawings. Considerable time is also spent in designing and constructing small original pieces.

The Advanced Course.

In the High school a very much more advanced course is taken up. The drawing includes intersections, developments, belting, designing of original work, and the making of blue prints. The wood work is almost entirely original. A few exercises in how to construct drawers, panel doors and the principal joints used in large furniture are taught. Each pupil designs a piece of furniture, makes a working drawing of it and, with the approval of the instructor, makes it.

The original work includes articles of value—tablets, library tables, music and sewing cabinets, chairs, davenport, stands, hall seats, in fact any piece of furniture which can be made by hand. These pieces have been on exhibition at the High school for two days. They are given to the pupils who make them after being exhibited.

A Mental Drill.

The entire course deals with the use of common wood working tools, forms of construction in fastening wood, and the reading and understanding of blue prints. They are of the same nature as those with which a

THE CAMPAIGN OPENED.

Pennsylvania's political campaign
has opened. The Republicans enter
the fight under suspicion of hav-
ing a desire to evade the issues, post-
poning the adoption of a platform un-
til fall. Senator Penrose, hoping to
hold the liquor vote which nominated
him, and at the same time pose as
the advocate of honest government,
ordered his state committee to ignore
the issues upon which the campaign
will be fought.

The Democrats, divided into bitter-
ly antagonistic factions, have adopt-
ed a platform feathered by that fac-
tion which has charge of the pie coun-
ter, thus widening the breach exist-
ing between the two wings of the
party. The spoils of office, not the
welfare of the people are the chief
concern of the Democratic leaders of
both factions, and as the McCormick-
Palmer faction is in the saddle the
adherents of the jobless faction are
not very enthusiastic for the state
ticket.

The only straight-cut declaration
of principles is that emanating from
the Washington party. That party's
position on questions affecting the
welfare of the people and on the is-
sue of honest government are so well
known that it was scarcely neces-
sary for the state committee to re-as-
sert them at this time. The policies
and principles of the Washington par-
ty never change; they are the same
today that they were when four mil-
lion voters supported the Progress-

sive candidates in the presidential
campaign of 1912.

The campaign will be fought on the
one issue which the honest voters of
the state regard as paramount to all
other issues this year—Penroseism.
If the people who know the evils
which have followed the ascendancy
of Penrose, the national agent of the
rum element and special privilege,
will unite with the Washington party
the state will be redeemed from boss
rule and Gifford Pinchot, an able,
clean and reputable man, will repre-
sent Pennsylvania in the United
States senate. With Penroseism as
their battle cry and a candidate who
is above reproach the Washington
party should carry the state this fall.

SMALL INVESTORS' CHANCE.

Borough council having decided to
issue a number of improvement bonds
of the denomination of one hundred
dollars citizens who have small
amounts of money to invest should
take this opportunity to place their
money in bonds which are as safe as
gold bonds. Council made this pro-
vision in order that the citizens might
have a chance to bid on the bonds
with banks or men of wealth.

If citizens buy these bonds the ef-
fect will be beneficial in two ways.
The investors will receive four per
cent. interest on their investment and
the borough will profit through the
greater interest the bond holders will
take in future issues. It is not ex-
pected that these improvement bonds
will sell at a high premium, but none
of them will be disposed of at less
than par value. When bids are
advertised for those who wish to in-
vest in the bonds should have no hesi-
tancy in making their offerings, no
matter whether they wish a small or
a large number of the bonds.

Huerta is able to receive arms and

some respects Huerta is more than a

who are running the American admin-
istration.

THREATS FROM I. W. W.

President of Village of Tarrytown
Takes Letter Before Grand Jury.
Tarrytown, N. Y., June 5.—President
Pierson of the village of Tarrytown re-
ceived by telegraph a communication
from the Live and Let Live league,
which he refuses to make public at
this time. It is understood that it is
in the nature of an ultimatum to the
effect that if the threats of hot tar and
cold water for the agitators are per-
sisted in and the right of free speech
denied there will be serious conse-
quences.

President Pierson is expected to lay
the communication before the grand
jury, although he will not say that that
is what he plans to do. Frank Lowe
of the league was at Tarrytown a few
days ago demanding the right of free
speech, and steps are being taken to
ascertain the authorship of the com-
munication. It is said the communi-
cation was sent in the form of a night
letter through one of the telegraph
companies.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neu-
tralize irritating acids.

Kidney and Bladder weakness re-
sult from uric acid, says a noted au-
thority. The kidneys filter this acid
from the blood and pass it on to the
bladder, where it often remains to ir-
ritate and inflame, causing a burning
scalding sensation and is very pro-
truding at the neck of the bladder,
obliging you to seek relief two or
three times during the night. The
sufferer is in constant dread, the
water passes sometimes with a
scalding sensation and is very profuse
fuss again, there is difficulty in
voiding it.

Bladder weakness, most folks call
it, because they can't control urina-
tion. While it is extremely annoying
and sometimes very painful, this is
really one of the most simple ailments
to overcome. Get about four ounces
of Jad Salts from your pharmacist
and take a tablespoonful in a glass of
water before breakfast, continue this

June White Sale. Friday June 5.

Is the day the selling of dainty Undermuslins begins

The most noticeable part of this sale will be the daintiness of the garments, the finest of materials and daintiest laces and embroideries and the dainty manner in which they are used. Plenty of ribbons running and tying in dainty bows and the rosebuds made of ribbons. Some of these rosebuds are made of pink and blue ribbons and just as dainty as they can be and as to price, we will let you decide that as you have in former years; but you must always take into consideration the quality and the good workmanship.

MILITANTS PLAN TO STEAL PRINCE

Plot Discovered, England Will Begin Harsh Measures.

STRONG GUARD FOR HENRY.

Scotland Yard Men Rushed to Eton.
Where Young Boy Attends School. Menace of Militancy Hangs Over Buckingham Palace—King Gives U. Exercise.

London, June 5.—The increasing fury of suffrage militancy has forced the government to face a radical change in policy, which includes the abolition of "cut and mouse" releases for suffrage prisoners and the treatment of suffrage propagandists and financial backers as conspirators against public order.

A kidnapping plot against Prince Henry, the king's fourteen-year-old son, which has been reported by Scotland Yard officers, is one of the outrages calculated to stiffen the backbone of the ministry. The king's third son attends school at Eton. The Scotland Yard authorities have investigated the details of the plot, and two detectives have been assigned to guard his safety.

King Gives Up Morning Canter.
Other indignities have disturbed the comfort of the royal family. The king has had to give up his morning canter in Rotten Row. Mrs. Pankhurst has encircled herself in a house not far from the palace, where she is recuperating from the effects of her latest hunger strike.

Special police have the place constantly under watch, fearing some ferocious outbreak in the presence of the king.

The outrages which are arraying the government and the militants in invincible division include the attack of the suffragette on an employee of the Dore gallery after she had hacked valuable pictures, the assault on the deputy governor and physician of Holloway jail, arson in Belfast and violent attacks on two editors in Belfast.

These things have brought the public mind to such a state that the government is forced to revise its policy. Indignation is intense, and the ministerial newspapers forecast the change. The reported plot to kidnap the king's

son is taken seriously in view of the concert of militant activity, and it may prove to be the basis of the government's ascendancy over the amazons.

STRETCH SHAMROCK'S SAILS

British Challenger Takes First Spin and Does Well.

Portsmouth, England, June 5.—Shamrock IV., Sir Thomas Lipton's new challenger for the America's cup, went out for her first sail stretching spin in the vicinity of Spithead. She was accompanied by Shamrock III.

The wind was light and fluky and inadequate to test the capabilities of the challenger. Under huge mainsail and her sloop foresails, she maneuvered handily, however, and picked up way quickly after tacking. The towering mast of the yacht quite dwarfed that of the older Shamrock.

Sir Thomas Lipton was on board the challenger, together with Charles E. Nicholson, her designer, and William P. Burton, the amateur yachtsman, who is to command the Shamrock IV during the cup races in America.

WILSON ACCEPTS MONUMENT.

Presented to the Government by Women of the Confederacy.

Washington, June 5.—Mrs. Daisy McLauren Stevens, president general of the United Daughters of the Confederacy, presented to the government, the southern women's monument to the dead of the Confederacy. President Wilson accepted the monument in behalf of the government.

The ceremonies took place in Arlington cemetery and were most impressive, among those participating being the leaders of the two great veteran associations. General Bennett H. Young of the United Confederate Veterans and Washington Gardner, commander in chief of the G. A. R. Secretary Bryan also was present.

NO TOLLS VOTE THIS WEEK.

Both Sides Eager For Issue, but Delay Seems Certain.

Washington, June 5.—All signs indicated that the final vote in the senate which will end the Panama toll controversy will be taken early next week. Those hoping for a vote this week were almost willing to admit that without night sessions a vote could not be reached this week, as had been hoped by Senator Kern, Democratic floor leader.

A singular point about the desire for a vote is that opponents of repeal seem just as anxious to vote as those in favor of it.

HUERTA SEEKS TO STOP ARMS

Orders Blockade of Port of Tampico by Federal Boats.

GUNS SENT FROM NEW YORK

Experts Say Dictator Has Right to Prevent Constitutionalists, Receiving the Arms—Administration Willing For Rebels to Get the Ammunition. Another Delicate Situation.

Washington, June 5.—All Washington is wondering what will be the outcome of Huerta's order to blockade the port of Tampico and keep out the arms shipped from New York on the Ward liner Antilla. These arms are for the rebels, who now hold Tampico, and the United States forces at Tampico have orders to keep that port open. What complications may arise to embarrass President Wilson and the mediators at Niagara Falls are a matter for serious conjecture.

The report that Huerta, or, rather his minister of war, General Blauquet, had ordered the blockade of Tampico, has just reached Washington. This action under the existing armistice is understood to be clearly within the rights of Huerta. It is not an augmentation of the supplies of either of the contending parties to the international quarrel now in mediation at Niagara Falls, but an effort on the part of a faction of Mexicans in rebellion against their government—as General Huerta sees it—to recoup their exhausted magazines with more material.

Must Keep Port of Tampico Open.
At this moment the American force in Mexican waters has orders from the highest authority as to how to act in the event that Huerta attempts to blockade the port of Tampico.

These orders were issued more than two weeks ago and so far as can be ascertained have not been countermanded. Under these orders the American commander was instructed to warn the federal naval commanders that the sanctity of the open port of Tampico must under no circumstances be disturbed. In view of the present status of the mediation proceedings Washington is on edge to learn whether the original orders have been revoked. If they stand as originally issued there is nothing for Admiral Badger to do but to warn the commander of the federal gunboats not to interfere with the discharge of the war material cargoes of merchantmen.

Huerta Acts Quickly.
The order of Rear Admiral Badger to stop any attempt on the part of the federal gunboats to blockade Tampico was at the time of its original transmission intended to be a secret communication.

Its text was not made public, but a sufficiently definite description of its purport was printed in the newspapers a fortnight ago. It is this intelligence which apparently has just reached General Huerta through his emissaries at Niagara Falls, and the blockade order has followed as Huerta's natural

move when such an opportunity to put the Wilson administration in a compromising position is afforded.

Mediators Continue Work.

Niagara Falls, Ont., June 5.—While waiting to hear from General Carranza whether he would send delegates to the conferences here the mediators planned to continue such work as would not be affected by the Constitutionalists' answer. The peace plan on which the two sets of delegates have been working for two weeks has been only partially completed. Much of the work will be of value, even if the Constitutionalists decide to enter the negotiations.

The feeling is general here that the attitude taken by Carranza in his reply will probably shape the entire course of the mediation hereafter and perhaps have a direct effect on the Washington government's future policy toward the two factions in Mexico.

FLAUNT PENROSEISM IN PEOPLE'S FACES

Republicans Stand by the Candidate of Special Privilege

Harrisburg, June 5.—Open flaunting of Penroseism is the program for the Republican state campaign. They who have been waiting to see what would be done to make the Republican party so attractive as to bring Progressives to it on the run received the answer at the Republican state committee meeting here Wednesday. It is Penroseism and more Penroseism.

While the senator wasn't present in the body at the state committee session Wednesday he was there in the spirit. The new committee displayed itself as his ready instrument. It re-elected Penrose's state chairman, William E. Crow; listened to praise of Penrose and adjourned for six weeks, at the end of which period Penrose may have contrived a platform for it to adopt.

Making of the platform is considered a matter of some delicacy. It must be a platform on which Senator Penrose's respectable running mate, Doctor Brumbaugh, candidate for governor, is willing to stand; and at the same time it must not be really offensive to the liquor interests, which supported the slate at the primaries and whose help is wanted in November. As the senator hadn't perfected its details, the committee wasn't allowed to talk about platform Wednesday.

Various progressive principles may be incorporated in the platform when it is rounded into shape. These will be as harmless as any individual declarations Doctor Brumbaugh may make. A cardinal part of Penroseism is capacity to disregard platform pledges after they have served their purposes at the elections and to suppress the individual tendencies of governors who obtain office by the Penrose machine route.

workman will come in daily contact and are a mental drill for teaching the things the man of business should acquire.

In time the school directors and faculty hope to have a full industrial course in the High school to prepare students for a technical college.

Drawing Department.

The drawing department includes free hand drawing, construction work and primary hand work. The drawing, which covers work with crayon, watercolor and pencil, is given in the eighth grade. The construction and hand work are given in the first five grades.

The aim of the drawing lessons is not to make artists of the pupils, but to enable them to represent with the hand the things which they see. The pupils are also taught to appreciate what objects and pictures are good in design and composition and what are not.

The course in drawing will be taught in the High school for the first time next year. It will then cover nine years of work.
